PROFESSIONAL PROFILE

Full Stack Developer specializing in AI-assisted development. I integrate tools like ChatGPT, Claude AI, and Gemini into my workflow, combining them with skills in React, Node.js, and Python to build complete web applications. I complement development with No-Code automation using Make and Zapier to connect services and optimize processes. I adapt quickly and focus on delivering concrete results.

PROFESSIONAL EXPERIENCE

Full Stack Developer – Internship

Hotel Mocawa | 2024 | 6 months

- Built and maintained the website using WordPress and custom HTML/CSS.
- Used AI tools to prototype and launch features faster.
- Collaborated directly with the client to align design and functionality.
- Kept the site in production ensuring consistent availability.
